Well I think we kicked goals with an unknown group last month. "Jamjar" were as sweet and addictive as their name. Their presentation was flawless, the solos well telegraphed and every member was given a chance to shine. Ellie kept the troops on task and the audience informed with assurance of purpose and some quirky vocals. Although the prize for novelty would have to go to Lauren for that "Song About Avocados". I think she should win the bravery award also for bowing to audience pressure to play "Golden Wedding". The driving melodic bass that Thomas produced held the group together beautifully.

Traditional jazz is alive and well in the hands of these talented young musicians.

It was great to see new faces and the return of some old ones. The long weekend didn't drag everyone away to a jazz festival, we had our own. Extend a warm welcome to Jan Morris and Tony Lambides-Turner of Korumburra. Tony is a mine of information on the history of jazz and the organiser of the "Henry Lawson Society" as you would have seen in the Sentinal Times.

This month we are delighted to welcome Sarah McLaine and her band to the club.

Sarah's polished diva image is well known to all who have seen her at Inverloch's Jazz Festival or indeed at any of the high profile Jazz Festivals across Victoria. She presents a well rehearsed collection of the best mainstream jazz standards. Her band are equally well known to all who have seen her perform.

This promises to be a memorable show indeed.
